

2-compartment 96-well 300 um comparison: v25 vs v27

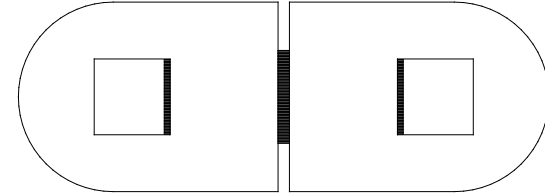

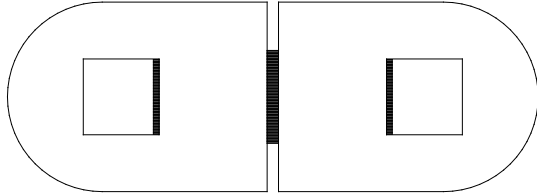

v25 (suex100)

v27 (suex200)

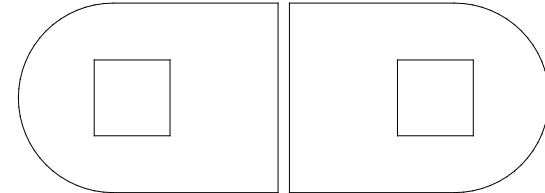

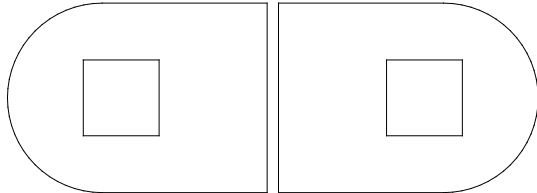

Full aligned layout

Single-device aligned layout

Single-device top detail

- v25 and v26 are nearly identical; v27 is the first major geometry/export revision in this line.
- This figure is rendered from the generated DXF outputs, not from OpenSCAD screenshots.
